Hi All. Sue texted me that she's stuck at work. I can't think of anything we need to discuss, but please let me know if I'm forgetting anything! Otherwise, plan to cancel tonight's meeting.

I was wondering about the status of the vshow. If Lisa Lamm went ahead and finished it or not and if checks and email were sent out yet.

That's all I can think of right now!

I don't believe we got anything from Lisa, but Sue will have to confirm.

Well this helps me out because I, too, am stuck at work.

Did Sue happen to find the 2022 budget? That would be one question I would have.

Thanks, everyone!

Steph
